

Recreation Therapy Equipment Loan Program

Things to know:

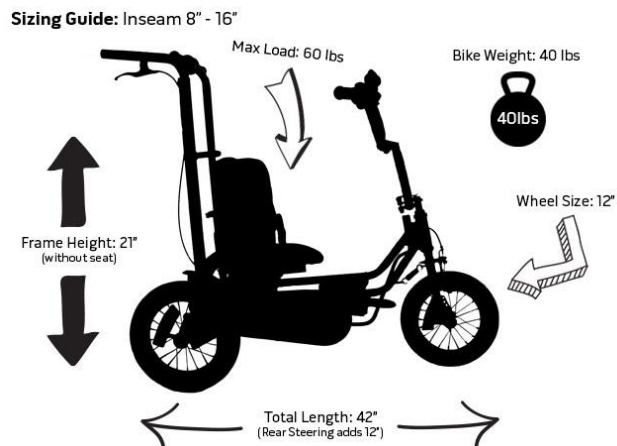

- A Recreation Specialist will help you determine which piece of equipment would best suit your child's needs
- Equipment loan forms must be completed before borrowing equipment
- Equipment will be inspected prior to leaving facility and upon return
- Drop off and pick up times must be met, if there is an issue with agreed upon time it is the family's responsibility to contact Recreation Therapy department
- Equipment must be stored indoors, out of weather
- Transportation is to be arranged by the family, if this is not feasible discuss alternatives with Recreation Specialist
- Typical loan period is 3 weeks however this could change depending on demand
- There is no cost to loan the equipment

Equipment Inventory:

DCP Mini

The DCP Mini, designed for children between 18 months and 5 years old.

Technical Specs:

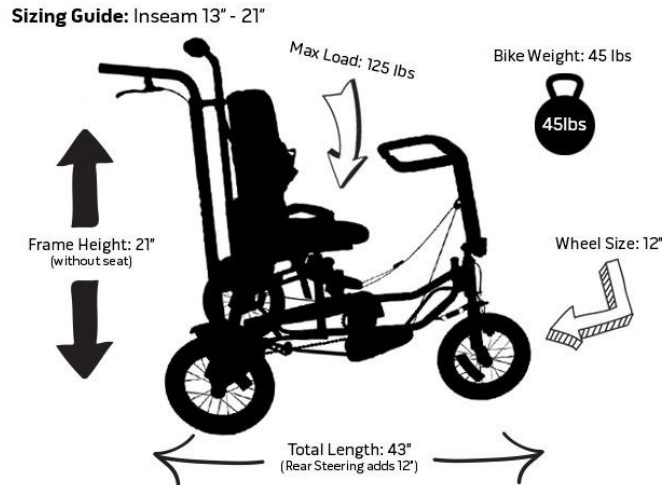

<http://www.freedomconcepts.com/product-lines/adaptive-bikes/discovery-series/dcp-mini/>

DCP 12

Designed for kids aged 4-8, the DCP 12 allows children to get out and join their friends as they grow up and learn to cycle together. This bike provides excellent stability and fits through standard door openings.

Technical Specs:

DCP 16 Pivot

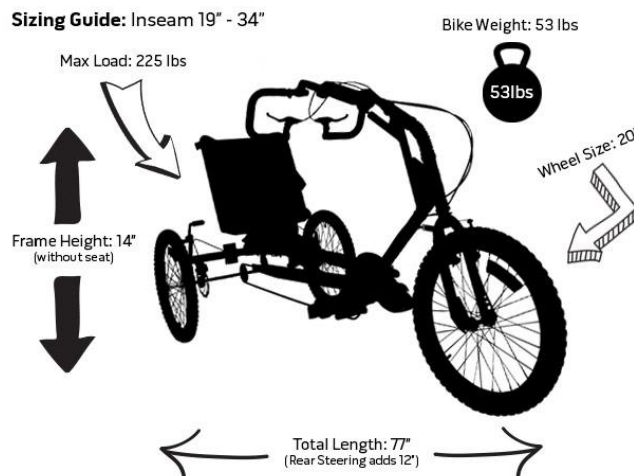

Inseam Range: 18" - 25" The Discovery Pivot is by far our most adjustable design. Redesigned frame allows riders to safely and comfortably transfer on-and-off the bike. For transportation and storage, there is a pivoting frame, removable rear wheels and detachable seat.

ASR 2011/Odyssey

The ASR 2011 is a semi-recumbent bike featuring a low-to-the ground seat, extended frame and pull-away handlebar system, making it easy to transfer on and off in a natural sitting position, even for those with limited range of motion. With the ability to add a Nexus 8-speed shifter, riders will be able to keep up with the rest of the pack while still enjoying the device's therapeutic benefits. The stable stretched three-wheeled design enables riders with limited range of motion to have their legs further forward, providing increased pedal power and strength.

Technical Specs:
